

July 2010 - Monthly Newsletters

Best Practices for Planning your Manual Test Effort

This month's newsletter is delivered as an On-Demand webinar. It is the 2nd in a 5 part series entitled "**Uniting your Automated and Manual Test Efforts**" and focuses on best practices for planning your manual test effort.

Best Practices for Planning your Manual Test Effort

Click on the movie below

(<http://www.softwareplanner.com/guidedtours/edgeui/Camtasia.asp?filename=UnitingPart02>) to begin the presentation. You will learn:

1. How to improve the effectiveness of your requirements definition
2. Best practices for creating manual test cases for each requirement
3. How to ensure you have good test coverage for traceability for each requirement
4. How to best organize your manual tests

What's Coming Next Month

Look for our next On-Demand video next month, "**Uniting your Automated and Manual Efforts**". Thank you and we hope you enjoy this On-Demand Webinar. If you missed last month's webinar, access it here:
